

Bishamon BS-55 Frame

Older style:
with entry rollers

Note:
Older style Bishamon pallet jacks, serial #203001 to #305004, use slightly different push rods, load roller brackets, and lifting link bushings. **These parts are not interchangeable.** Please be sure you know which jack you have before ordering parts. The easiest way to tell, besides the serial number, is older style jacks have entry rollers (item 42).

Note:
Item 11, steer wheel axle with ears, uses a wheel that takes one 20mm and one 25mm bearing.
Item 19, steer wheel axle with no ears, uses a wheel that takes one 20mm and one 25mm bearing.
Item 46, steer wheel axle, uses a wheel that takes two 20mm bearings.

Bishamon BS-55 Frame

Item	Part No.	Description	List Price
1	12007244	Lifting Link Shaft, 27" Wide Jack	\$20.00
