

# Lift-Rite (Big Joe) L-50 Frame

Including Low-Profile Jacks L-50 Mini and L-50 CHEP (4-way)

## Before you order:

To ensure that you get the correct parts, be certain whether your L-50 pallet jack is a standard model or one of the lowered-height models (MINI or CHEP).

**Note:**  
If you replace item 7, you will also need item 36 on page 86.

**L-50 Mini**

**L-50 Mini**

**L-50 CHEP (4-way)**

**L-50 CHEP (4-way)**

**Note:**  
The CHEP bracket (item 42) is cut out on top to allow the jack to lower an additional 1/4 inch.

**Note:** Some of the parts for standard L-50 pallet jacks are different from those for the low-profile jacks, the L-50 Mini and the L-50 CHEP (also known as 4-way); and some of the parts for the Mini jacks are different from those for the CHEP jacks.

**These parts are not interchangeable.**

The label on your jack will not tell you which kind you have. You must measure the load rollers. Load rollers on standard L-50 jacks are 3" in diameter, load rollers on L-50 Mini jacks are 2" in diameter, load rollers on L-50 CHEP (4-way) jacks are 1-3/4" in diameter. Measure the load rollers and make sure which kind of jack you have before ordering parts.

# Lift-Rite (Big Joe) L-50 Frame

Including Low-Profile Jacks L-50 Mini and L-50 CHEP (4-way)

Item	Part No.	Description	List Price
